**Address:** G05, Lai Kit Lau, No. 38 Lai Tak Tsuen Road, Tai Hang, Hong Kong

## Education

### The Chinese University of Hong Kong (CUHK) Bachelor of Engineering in Computer Engineering

Sep 2019 – Jul 2023

- Major GPA: 3.342 / 4.0
- School Projects:
  - Final Year Project: Investigate and study the current classification methods on imbalance medical image data and improve it with two-stage classification. A website is built with the trained model that allow the classification of medical image and return of classification result.
  - Course Group Project: Designed and implemented a photo-sharing web application and deployed it on AWS cloud computing service in a Software Engineering course.

## Work Experience

### BDO Limited, Hong Kong Software Developer – Intern

Jul 2021 – Aug 2021

- Compared different potential automation methods and chose the most reasonable one based on user-friendliness, performance, and flexibility for the users.
- Self-learnt Power Automate to develop an automation flow to increase the work efficiency in the company.

### KaChick AI Limited, Hong Kong Software Developer – Intern

Jun 2022 – Aug 2022

- Developed a website that could generate a random avatar image with ReactJS as front-end framework and Flask API as back-end.
- Built the front-end of a photo searching website base with ReactJS and MUI based on the UI design created by an UI designer teammate.
- Communicated with UI designer, back-end developer, and product manager to improve the website from time to time.

### Working Holiday – Takumi Ramen Den Haag, the Netherlands Waiter – Part time

Feb 2024 – Sep 2024

- Handled multiple tasks in a high-stress environment, maintaining accuracy and focus to consistently deliver timely service during peak times.
- Coordinated seamlessly with international team members and adapted quickly to different roles to handle complex orders and special requests.

## Extra-curricular Activities

### The Rotaract Club of the Student Union of Lee Woo Sing College, CUHK President

Mar 2020 – Feb 2021

- Organised community service activities such as beach clean ups and mask distribution for the homeless with clear division of labour

### ABU Robocon 2022 Robotic Team Member of CUHK

Jan 2022 – Jun 2022

- Designed and created a unique robot prototype to ensure the consistency in task performance
- Conducted testing of the robots by applying different variables and adjust them accordingly to achieve the best optimal performance

## Skills

**Programming Languages:** C, C++, ReactJS, NodeJS, MySQL, Python, VBA, VHDL, HTML, CSS

**Software:** SolidWorks, Arduino, Power Automate, Microsoft Word, Excel, PowerPoint, MongoDB, AWS

**Language:** Native - Cantonese, Fluent - English and Mandarin, Elementary – Japanese (N3)
